

THE BUSINESS OF LOVE INCORPORATED REALITY MATCHMAKING DOCU-SOAP PREMIERES TONIGHT

Love Incorporated follows the lives of power couple Annabelle and Justin Parfitt.

International power couple Annabelle and Justin Parfitt want to match the world through their speed-dating empire, FastLife.

They want it all – a successful business and a satisfying marriage.

While Justin is determined to expand their company, Annabelle wants to start a family.

Premiering tonight on Slice, Love Incorporated is a 13-part docu-soap following the real-life adventures of the Parfitts as they try to run FastLife and keep their relationship alive.

“Belle and I have had to work hard at working together,” Justin tells t.o.night.

They met seven years ago when she was 18 and he was 32, and he says they haven’t lost their passion for each other.

The tough part is finding a balance between work and their romantic lives.

“Belle wants kids right away, I’m more inclined to concentrate on getting the business where I want it first,” he says.

“It’s an international (company) and we’re always travelling. I don’t know how

well we could integrate children into our current lifestyle.”

The reality show will also revolve around FastLife and how it works. With events held in Australia, Canada, China, New Zealand, the U.K. and U.S., the outcome is a match rate of over 90%.

“I’ve seen several of my friends come along and meet ‘The One,’” Justin says.

“And we’re always getting e-mail testimonials from our customers saying how much fun they had and how they’ve met someone special.”
